- Bahasa (Fluent)
- English (Intermediate)

SUMMARY

I am a Flutter-focused Mobile Developer with 4+ years of programming experience and 1+ year of freelance experience. I have built real-world education and fintech products involving mobile app development, Firebase integration, payment workflows, backend services, and admin dashboards. I am strong in Flutter, Firebase, API integration, and scalable mobile app development.

FREELANCE EXPERIENCE

CPay - Fintech Mobile & Web Application 2025 - 2026
Full Stack Developer

- Built an end-to-end fintech platform across Flutter mobile app, Next.js web payment pages, Express.js backend services, and admin dashboard.
- Developed merchant payment workflows including invoices, orders, payment/product links, receipts, refunds, QR sharing, WhatsApp sharing, and configurable fees/taxes.
- Integrated Tap Payment Gateway for merchant onboarding and multi-method payments, while building admin analytics for merchants, subscriptions, transactions, revenue, and scheduled Firebase reporting.

Fit Lit - Sports Mobile Application 2025
Mobile Developer

- Built a Flutter and Firebase-based school sports application used by students and teachers to guide physical activities and assessments.
- Implemented role-based access for students, teachers, and admins, offline-first synchronization, evaluation scoring, and multilingual support.

PROFESINONAL EXPERIENCE

PT Bejana Investidata Globalindo 2024 - 2025
Mobile Developer

- Developed Flutter features for Risehand, including permission requests, absence reminders, and event management.
- Enhanced Dzikra app with Quran, Dhikr, and prayer-related features, while collaborating with UI/UX, backend, and QA teams for smooth system integration.

EDUCATION

Bachelor of Digital Business 2021 - 2025
Indonesia University of Education
GPA: 3.95 / 4.0 (147 credits / 7 Semesters)
